License Definitions:

Individual License (1): license permits inMotion software to be loaded on a single computer. Designed for individual athletes or coaches who will be using the software themselves.

Team (3): provides licensing to install inMotion software on up to 3 separate computers. Designed for the team, school or club wanting multiple coaches to use the software.

Site: provides licensing to install inMotion software for coaches of all athletic teams at a school or club. Designed to provide schools or athletic departments sufficient licenses to use inMotion software for all teams.
